

Senior Spotlight - Destiny Scott

Destiny Scott is a proud member of the Library Club. Her plans after graduation, is to attend Southeastern University and major in sonography ultrasound technology. One of her favorite things about LHS is seeing the teachers in action when they are in their classroom, the pep-rallies and watching her friends play football.

Destiny is looking forward to a fast senior year, especially all the activities that are planned for senior week. One of the things she will miss after graduation is her friends and her teachers, that helped her get to where she is now. When asked how it finally feels to become a senior, she replied “It’s truly a blessing and it feels strong because I made it his far.”

Her favorite teacher is Mrs. Brady, because she always motivated her to do the best that she possible can. Destiny stated “Mrs. Brady always looked for the best in me, when I didn’t find the best in myself.”
